

NOAH RAGAN

FULL STACK SOFTWARE ENGINEER

Willow Springs, MO | noah.j.ragan@gmail.com | linkedin.com/in/njragandev | github.com/MotherTheresa64
noahragan-portfolio.vercel.app

PROFESSIONAL SUMMARY

Full Stack Software Engineer building and deploying production-minded web and mobile products with React, TypeScript, Python, Flask, Node/Express, PostgreSQL, Firebase, and React Native/Expo. Hands-on with REST APIs, authentication, relational data, local-first state, integrations, responsive UX, testing, CI/CD, and cloud deployment.

TECHNICAL SKILLS

Frontend/Mobile: React, TypeScript, JavaScript, React Native, Expo, HTML5, CSS3, Tailwind CSS, Vite, Responsive Design

Backend: Python, Flask, Node.js, Express, REST APIs, SQLAlchemy, Marshmallow | Data/Auth: PostgreSQL, SQL, SQLite, Firebase Authentication, Authorization, Local-first Persistence

Testing/Delivery: Pytest, Git, GitHub, GitHub Actions, CI/CD, Render, Vercel, Swagger/OpenAPI, Postman

SELECTED PROJECTS

Ledgerly — Full-Stack Personal Finance Application React · TypeScript · Python · Flask · PostgreSQL · Firebase

- Built and deployed a multi-user finance product with transactions, budgets, savings goals, cash-flow analytics, CSV import/export, Firebase identity, user-scoped PostgreSQL data, automated tests, GitHub Actions, and responsive desktop/mobile UX.

Planora / Threadline / Wanderline — Live Product Engineering Suite React 19 · TypeScript · Express · Render

- Planora: project-planning workspace with multi-project Kanban, calendar, search, task/project workflows, derived analytics, responsive mobile UX, and persistent themes.
- Threadline: collaborative knowledge workspace with channels, searchable and deep-linked discussions, replies, reactions, bookmarks, resolution workflows, keyboard navigation, and accessibility-focused responsive states.
- Wanderline: travel planner with editable day-by-day itineraries, USD budgets, packing, saved places, Open-Meteo weather, OpenStreetMap handoff, Web Share, search, and mobile-first trip layouts.
- Structured all three for credential-free local-first demos today, with isolated Firebase authentication and persistence boundaries for the final per-user hosted-data phase; deployed through aligned local, GitHub Actions, and Render verification.

Bottom Dollar — React Native / Expo Mobile Game React Native · Expo · TypeScript · AsyncStorage

- Built a persistent life-and-money progression game with finance, wellbeing, housing, education, career, investment, business, event, achievement, and haptic systems in a data-driven mobile architecture.

SOFTWARE ENGINEERING TRAINING

Coding Temple — Software Engineer Apprenticeship / Full-Stack Development 2026

- Built full-stack applications and REST APIs across React, TypeScript, JavaScript, Python, Flask, SQL, authentication, relational databases, testing, Git/GitHub, responsive UI, debugging, and deployment workflows.

PROFESSIONAL EXPERIENCE

Enterprise Mobility — Reservation Specialist Remote | Sep 2024 — Mar 2025

- Supported customers in a high-volume remote environment, troubleshooting reservation/account issues, documenting interactions, and communicating clear solutions while working independently across time-sensitive workflows.

Tractor Supply Company — Team Member Willow Springs, MO | May 2026 — Aug 2026

- Supported customer service, inventory, stocking, merchandising, and store operations using handheld systems and product information to resolve requests and support restocking workflows.

EDUCATION

Union Adventist University
